

## **Guidelines for In-Person Worship at All Saints' Church** (updated June 2021)

### I. Guidance on Who Should Attend

The best way for our congregation to keep each other healthy is to not attend in-person worship if:

- You have had a new onset of symptoms of COVID-19 in the last 2 weeks. Common symptoms include:
  - Loss of taste or smell
  - Cough
  - Chills
  - Trouble breathing
  - Sore throat
  - Exhaustion
  - Headaches
  - Diarrhea
- You were exposed to someone with the above symptoms or a positive COVID-19 test in the last 14 days

We encourage members who plan to attend services in person regularly also to be tested regularly for

COVID-19. To find a testing site, visit <https://www.nychealthandhospitals.org/covid-19-testing-sites/>.

## II. Registration for Contact Tracing

When you arrive, there will be stations inside the church where you will be asked to provide your contact information. All attendees must provide contact information to be allowed into the building.

## III. Demarcating Physical Distance

The pews will be taped off so that worshippers will be seated six feet apart. The maximum number of people currently allowed in the church is 50% of the church's seating capacity. Markers on the floor indicate six feet of distance to help parishioners give one another sufficient space during Holy Communion.

## IV. Masks

Proper and complete mask use will be a requirement to attend worship and will be monitored and enforced by an usher. Masks must be worn over the mouth and nose at all times with no exceptions. High-quality KN95 masks are available at the entrance of the church, as well as blue surgical masks.

## V. Physical Distancing

Clergy and ushers will encourage worshippers who do not arrive together as a household to maintain six feet of physical distance, referring to posted signs, as needed. All attendees should exit the building at the conclusion of the service. Weather permitting, socially-distanced outdoor fellowship will be available in the garden and on the street following the service.

## VI. Singing

Congregational singing with masks has resumed as of June 6, 2021.

## VII. Hand Sanitizer

There are hand sanitizer dispensers at the church entrance.

## VIII. Cleaning

The church is regularly cleaned between worship services. A sanitary log of cleaning is kept.

## IIX. Ventilation

The doors and windows of the church will be kept ajar during all services to aid airflow.

## IX. Ushers

You will be greeted by ushers, who will facilitate registration, direct the flow of worshippers to their seats, and ensure that attendees adhere to all guidelines. Please be courteous and follow the ushers' instructions.
